

Now I Know

Words and Music by Gen Bryant

VERSE 1

There was a different time,
And time was an empty space,
That left me behind in some forgotten place.

The world that I knew, was breaking down all around me.
And all I could see, was less than truth.
I believed the world could come crashing down upon me,
To wipe out all I've known and all I've ever been.

CHORUS

**But now I know, all I needed was your love.
Now I know, all I needed was your love.**

VERSE 2

Somehow now I can see, the light is bringing new signs of life.
Sometimes hope is all I need to get me through night.
I believed that no one would ever get to see,
The lies and empty places that I've been.

BRIDGE

You pick me up, You pull me through,
You know, my God, how I've cried to you.

To pick me up, to pull me though,
You know, my God, how I've cried to you.
